SKILLS

- Leadership Qualities
- Team Player
- Communication
- Resilient
- Debugging

CODING SKILLS

- Python
- JavaScript
- PHP
- MySQL
- CSS
- MongoDB
- AngularJS
- NodeJS

ABOUT ME

Experienced in web development with proficiency in HTML, PHP, CSS, JavaScript, and MySQL, along with UI/UX design skills. Recognized for resilience under pressure, adept in debugging and code analysis. Committed to excellence and ongoing professional growth.

PROJECTS

EstateX

A comprehensive online platform facilitating real estate transactions, allowing users to seamlessly buy or sell properties.

- PHP, HTML, CSS, JavaScript used exclusively for development.
- Utilized MySQL for storing property details and user information. Employed SQL queries for database operations.
- HTML and CSS for UI design. JavaScript for client-side validation and dynamic content.
- PHP scripts for server-side logic. Implemented secure authentication.
- Enabled users to upload property images and preview the image before uploading.
- Implemented a feature for generating a popup receipt upon successful transaction completion.

AutoMech

An online platform for connecting people with nearby mechanics based on the user's live location.

- PHP, HTML, CSS, and JavaScript were exclusively used for development. Utilized Google Maps API for tracing live location and finding nearby mechanics.
- Implemented role-based login/signup functionality using PHP. Users could register as either customers or mechanics.
- Designed user interfaces using HTML and CSS. Employed JavaScript for dynamic content and user interactivity.
- Developed server-side scripts in PHP to handle user requests, interactions, and process mechanic requests.
- Utilized MySQL for storing user information, mechanic details, and requests. Employed SQL queries for database operations.
- Integrated Google Maps API to fetch nearby mechanics based on the user's live location and retrieve their contact details and expertise.

LANGUAGE

- English
- Bangla
- Hindi

EDUCATION
